

Thank you for purchasing a Semrock optical filter or filter set. In the past, each shipment has included a spectral plot for every filter and every lot code in the shipment. In an effort to be more eco-friendly, IDEX Health & Science will no longer be including these plots with each shipment.

For a theoretical representation of your product please visit <https://searchlight.semrock.com> and enter your part number into the search box in the left hand column.

Type in filter part number
(you do not need to include
the diameter -25)

Double click the result
to have it populate on
the plot

NOTE: you can add
multiple products to
display on the plot

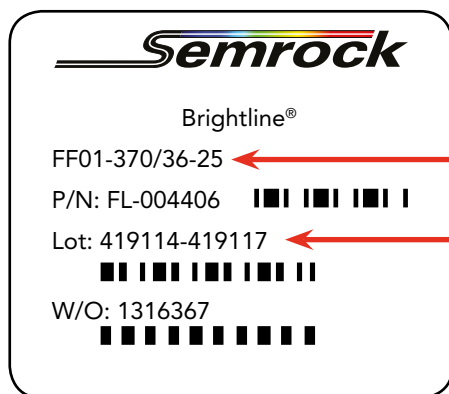

Print, export,
or log in to
save your plot.

If you require a plot generated from the actual lot data, please submit the Semrock part number and lot code combination to sales@laser2000.co.uk

For set data, please include the part numbers and lot codes for each of the filters in the set.

How do I find my part number and lot code information:

Semrock Part Number

Lot Number

Semrock part number / Lot code combination
