

1228C LaserSource Cable, 20 A, 2 m

The 1228C is a 20A-rated cable for use with the 4320 and other high current instruments. With a 9W4 connector on both ends, the 1228B allows for easy connections between the instrument and mount.

A version of this cable, the [1229C LaserSource Cable](#), is available which features bare tinned wires on the fixture end.

Only laser anode and laser cathode connections are made with this cable.

Specifications

Instrument connection	9W4, male
Mount connection	9W4, female
Signal connections	LD anode / cathode in twisted pair
Current rating (A)	20
Length (m)	2
Hood construction	Metal
